Rahul Sai,

I hereby give my consent to be your capstone guide for the proposed problem statement.

Thanks,

Sharmila Banu K

**Subject:** Capstone Project Proposal

Ma'am,

I hope you are doing well. Please find attached my project proposal, for the Capstone project. The project title is **Medical Report Generation on Chest X-Ray images**. I had been working earlier on some applications of deep learning in the biomedical field, and would like to continue that. With this project, I can apply concepts of NLP as well as CNNs in a single project. I have defined the workflow in the project proposal along with an example image from the dataset.

The SCOPE school requires us to have a consent mail from the internal guide for submitting the proposal. So I kindly request you to provide your consent with a reply to this email.

Thanks and regards,

R.S.Rahul Sai
